

## July 13<sup>th</sup> Resistance Call

Today is July 13<sup>th</sup>, 2021, I am Jérémie Mercier and I am speaking to you this evening from Tallinn, Estonia, where I am a refugee since October 2020, having been warned 1 month in advance of the 2<sup>nd</sup> lockdown to come in France.

Yesterday evening, just after the "Euro 2021" final, a sporting football event that served as an ideal entertainment to distract both the attention and vigilance of the citizens, and just before the symbolic date of July 14<sup>th</sup>, Emmanuel Macron addressed the French nation.

During this announcement, the president presented in a highly authoritarian manner very restrictive measures to force tens of millions of French people to receive experimental injections supposed to fight against Covid-19.

This unacceptable blackmail is the latest in a long series of fear-rhetoric speeches aimed at astonish and control the masses.

Remember.

On Monday March 16<sup>th</sup>, 2020, after weeks of hyper-media coverage of a virus, Mr. Macron gave a speech in which he said six times "we are at war".

During this speech, he announced a national "lockdown" from the next day at noon, a first in French history.

The lack of philosophy education, critical thinking, scientific approach and the missing history of crowd manipulation of an overwhelming majority of the French had allowed this crude manipulation to take hold.

Overnight, tens of millions of people saw themselves as heroes by staying at home.

Fearing the virus, drunk with terrorizing speeches in the media, the overwhelming majority of French people followed the hostage-takers' demands to the letter:

- Fill in degoratory certificates
- Limited number of outings and less than 1 km from home
- Compulsive use of hydro-alcoholic solutions
- End of hugs and family reunions
- Etc.

The organized shortage of masks had convinced the population of the government's unpreparedness or its total incompetence.

The applause at the windows every evening at 8 p.m. towards caregivers after the count of deaths categorized as "Covid" - and disproportionate to reality - increased the feeling of living an extraordinary pandemic and allowed people to show that they were good citizens.

Bad citizens who dared to leave their homes too often or too far away were denounced system's guardians.

This whole scenario does not come out of nowhere.

It was invented by major American crowd manipulation consultancy firms and paid for handsomely with your tax.

With the "nudge" technique - or nudge - ground markings, certifications and many other subterfuges, you were unwittingly encouraged to act in a manner desired by the authorities.

For example, the organized shortage of masks thus created an unprecedented demand once the masks were available.

While all the named science unequivocally demonstrates the complete lack of effectiveness of surgical masks like FFP2 in limiting the spread of respiratory viral diseases, from the start of unlockdown, you were encouraged to wear them. First in shops, then outside in city centers, then everywhere.

Children under 11 were initially exempt, then from November 2020, they too had to undergo the mask, a pure control instrument by essence, which permanently and visibly reminds the narrative of the pandemic.

Thus, you have suffered multiple blackmails, which never resulted in any of your freedoms to be back.

The hostage takers lie every single time.

You were led to believe that it would only takes 2 weeks to flatten the curve. Those 2 weeks turned into 2 months.

Then there was the blackmail with the mask, the blackmail with the curfew, again the blackmail with the lockdown (3 times already!), Then the blackmail with the V\*\*\* and now the blackmail with the current "sanitary" pass.

However, as early as May 2020, it was clear that the peaks in mortality from all causes, observed in certain localizations only, had nothing to do with peaks in mortality linked to epidemics of classic respiratory viral diseases, especially as the mortality over the year was not exceptional.

These peaks are in fact the logical consequence of terror policy, of the absence of basic care for the most vulnerable people, and probably of the use of Rivotril® to "put to an end" thousands of elderly people in retirement homes.

Basically, the cure "lockdown, terror and lack of basic cares" was worse than the disease itself but failed to make 2020 a year out of the norm in terms of its average mortality.

Today, many people believe that by meeting the demands of their hostage takers, they will finally win again their freedoms.

This cannot be less true! The experience for a year and a half shows that this is clearly not the case.

On the contrary, it is your acceptance of absurd measures that allows the hostage-takers to be more and more demanding.

Also, I let you imagine what can be the result if you let pass the health pass or rather the "shame pass" without flinching. We can reasonably guess that it will not be 1 or 2 doses, but 3, 4, 10!

A dose every month to counter each new "variant"?

Also, these experimental injections are still in clinical trial as phase 3 and we have no clue of their side effects in the medium and long term, while their efficiency has been estimated by the manufacturers themselves whom dishonest methods, frequently used on others pharmaceuticals led by themselves, have cost them already billions of euros in fines.

By receiving these experimental injections, manipulated people who believe in the narrative think that they will return to a normal life, that they will save lives. Everything is done so that the unvaccinated feel guilty. Guilty of being alive!

Yes, all totalitarianisms have always grown by pretending that they were acting for the people's good, spreading a lot of guilt and fear.

It is your job to realize that current governments do not want your well-being, but rather than act against it, in a clearly conscious way. It is not about incompetence.

I know this awareness is difficult and disturbing, but it is also this awareness that will give you back power over your life.

The goal of this 2.0 totalitarianism seems to be a masses-control, with a generalized people follow-up allowing by new technologies, and the citizens' enslavement, becoming numbers, having to obey a so called French social credit, which may be even worse than the Chinese one.

Don't be intimidated by the label "anti-vax" or "conspirator" you may receive from people still in denial and still preferring the comfort of conformism.

Leaving the herd is difficult and requires effort.

It is for all these reasons that I invite people who have not received experimental injections to resist, to not accept them, at any costs, whatever the means implemented to not receive them, and to not get the "health pass".

This can lay for some people to just change their habits and go shopping differently, getting closer to local producers for instance. For others, they may be need to change profession, region or even country.

Your life won't go back as it was anyway. So now is the perfect time to choose the life you really want.

For people already vaccinated, I invite you to totally refuse the health pass as well as not to go to any places requiring it, or to go there without a pass, if possible at the same time as many other people so that a sufficient balance of power is on your side. Giving civil resistance actions effective and bearing fruit without violence.

Get organized and go get together

Take advantage of the demonstrations that will take place in the coming days to meet in real life, expand your resistant fighters address book and organize real meetings to discuss modalities of future resistance actions, find support, and simply renewing human contact when everything for the past year and a half has been done to divide us.

Censorship by GAFAM is currently increasing and it is likely that dissidents will all be ejected from these networks in the long term. This is why we must try to take advantage of alternative technology and networks that do not censor.

You can join my Telegram group <https://t.me/DeconfineTaSante> in order to continue to follow my updates and keep on the debate.

I also call to all people of good will who wish to help me in this work of organizing the Resistance.

The coming weeks and months may be difficult, but people must not beg for their lost freedoms, but fight their real freedom instead.

Courage to all, long live the human-race, long live life, and long live freedom!

Jérémie Mercier
